

TECHNICAL DESCRIPTION

- Type : Pitch or Air Cylinder Fixed System
- Available Test Filter Size : Dia 60 - 100 mm Height : 80 - 160 mm
- Base Water Tank : W1000 x D650 x H1600
- PLC control system
- Body Material : Steel Plate(Painting)
- Water Tank Material : SUS 304 and Safety Glass
- Main Pressure : 6 kgf /cm²
- Test Pressure : 4 kgf/cm²
- Air Cylinder Speed Controller installed
- Staneless Steel Body &Water Tank
- Temperature Controller : PID Digital
- Heater : 220V x 500W
- Lamp : 220V x 20W
- Temperature Range : 0~40°C

APPLICATION

- This machine adjust for simple test on the water base, visual checking method use for laboratory only. and clamp holding device installed for easy to tested filter joint &undo.
